### Profile of Correlators

Sunshine Correlations currently employs a team of educators experienced in the evaluation of instructional programs from Pre-K to Grade 12 across all subject areas from textbooks to online curriculum, trade books, reference material and educational software. All of our correlators have a degree in education. They also have many years of experience in the classroom. Our 'team leaders' have their degrees and experience in their assigned educational curriculums. Most of our correlators are also ESL certified.

### Clients

### Sunshine Correlations' History

After years of experience in the classroom, Marilyn Redding began correlating textbooks for a variety of textbook publishers. After 10 years of correlating, in 2002 she started Texas Sunshine Correlations LLC. Her company began with a hand full of her own children's teachers. It has now grown to employ a vast team of experienced educators specializing in specific curriculums. In 2007, she changed the name of her company to Sunshine Correlations LLC.
